OEWG on PAROS | Side Event

## Concrete Measures and Language on Addressing Space Threats

Tuesday, 7 July 2026 | 13:15 to 14:45

Room VII, Building A, Palais des Nations

Join us for a light lunch and refreshments from 12:45.

Recognising the importance of pursuing tangible outcomes early, we explore proposals from Member States and civil society for concrete measures and language to be considered for the OEWG's recommendations to the UN General Assembly. The discussion will focus especially on key issues on the third session's agenda, including destructive activities, self-restraint, RPOs, and protecting civilian space-based services.

### Speakers
